

EXOCET

A lemon scented strong caustic granule that will clear drains of grease, oils, fat and hair instantly.

What is Exocet?

Exocet helps clear grease, oil, fat, soap and hair from blocked or slow running drains using a unique thermo-reactive granule formulation. Exocet eliminates the need for caustic liquids and dangerous acid solutions. The granular formulation prevents hazardous splashing, and it's fresh lemon fragrance leaves the area smelling clean and hygienic.

How does Exocet work?

Exocet's thermo-reactive granules are activated only when they come into contact with water. The formulation produces heat which dissolves organic matter. You can accelerate this process by adding tepid water after you have introduced the granules, if required.

The granules create a "heavier than water" solution which enables Exocet to sink to the problem areas to relieve the blockage or slow running drain quickly and effectively.

Key Features and Benefits of Exocet?

- Quickly dissolves organic matter such as fat, grease and hair which can block sinks, drains and water waste pipes.
- Exocet is safer than using harmful acids.
- Easy-flow granule formulation prevents dangerous splashing.
- Ideal for use in domestic, institutional and commercial premises.
- Leaves behind a fresh lemon fragrance.
- Prevents serious build-up which can result in expensive drain rodding or jetting services.
- Prevents slow running drains which are a health hazard and a major cause of bad odours.

How do you use Exocet?

Simply introduce a single dose (30ml) of thermo-reactive granules to the problem area, and add tepid water at this point if you want to accelerate the process. Do not lean directly over the dosing area.

If you don't think the single dose has cleared the problem completely, you can repeat the process.

You can also use Exocet as a maintenance product. By dosing more regularly in specific problem areas where there are constant build ups of grease, fat, oil, soap and hair, you can prevent a full blown blockage.

If you have a kitchen or bathroom area, Exocet will keep your drains clear and running free.

Exocet is available in 1Kg containers or 30ml single dose mini containers.

IMG Distributors Riverside Ind. Estate, Fazeley, Tamworth, Staffordshire B78 3RW.

The IM Group utilizes a process of continuous product improvement for all of our products. While the IM Group strictly adhere to our products specifications, we routinely implement product improvements. Therefore, please contact us for our most current product specifications.
