

ULTIMATE GLASS CLEANER

Is a powerful blend of specially selected biodegradable surfactants and solvents that clean quickly and efficiently to leave glass spotless.

What is Ultimate Glass Cleaner?

Ultimate Glass Cleaner is a perfumed liquid formulation using a naturally derived, polymeric surfactant which cleans without streaks or smears and leaves a pleasant aroma.

Formulated to have a low VOC content with a blend of highly specialised and selected biodegradable surfactants and water miscible solvents, it cleans quickly and efficiently.

The specialised 300ml aerosol bottle delivers a fine mist of cleaner onto glass surfaces, which helps break down any stubborn residues quickly and does not overload the surface with wasted cleaner which can be difficult to wipe off.

Whilst Ultimate Glass Cleaner cleans the glass easily, the perfumed fragrance of Sea Grass and Lotus Flower with hints of African Violet and Oriental Geranium leaves the area smelling as fresh as it looks.

The fine mist quickly evaporates, any overspray of the cleaner onto unwanted areas can be left to quickly disappear. It can be used to clean glass, mirrors, marble, stainless steel and other hard surfaces, whilst also being safe to use on plastics.

Ultimate Glass Cleaner is stable to use at all temperatures and conditions and has a neutral PH. Packed in boxes containing 6 x 300ml spray bottles or 12 x 1 litre refill bottles gives the best of all worlds, the sprayers are light and easy to handle whilst the refills can remain in a store.

Key features and benefits of Ultimate Glass Cleaner

- Fast evaporation.
- Contains really nice fragrances
- Simple, easy and quick to use.
- Neutral PH
- Overspray quickly flashes away.
- Low VOC content - water miscible solvents.
- Biodegradable surfactants.
- Fantastic on glass, mirrors, marble and stainless steel.
- Specialised 300ml sprayhead is light and easy to use whilst giving the ideal spray pattern when cleaning glass.

How to get the best results

Use neat as supplied, spray onto a surface and wipe clean using a lint free cloth. We recommend Red Rag's Great White Wipes.

Product Information

SG @ 20oC: 0.990 + 0.01.

pH: Neutral.

Miscibility: Miscible with water.
