

FOAMSEAL CLEANER

Fast and effective clean-up for Foamseal In A Can

What is Foamseal Cleaner?

Foamseal Cleaner is an advanced cleaning agent that has been specifically formulated to clean and remove uncured Foamseal In A Can deposits, from working surfaces and the aerosol dispensing equipment.

Safety Information

Highly flammable. Keep in a well-ventilated area, and away from sources of fire or flame. Take precautions against static discharge. Do not smoke while using Foamseal Cleaner and do not inhale the spray, or its vapours.

Keep out of the reach of children. This is a pressurised container. Do not puncture, damage, or expose to heat in excess of 50°C. Never pierce or burn container, even when empty.

Never spray onto open flame, or onto hot or incandescent material.

Technical Information

For best results, Foamseal Cleaner should be used within ten minutes of using the Foamseal product, before the curing process becomes advanced.

Shake the can well before use. Attach the red spray nozzle onto the aerosol valve. Spray the cleaner towards the uncured Foamseal In A Can. The foam will dissolve and can be wiped away with a cloth. When cleaning the foam dispensing nozzle and tube, continue spraying until all dissolved foam has been washed away.

For your protection, always read the MSDS sheet for Foamseal Cleaner before use and follow it closely.

IMG Distributors Riverside Ind. Estate, Fazeley, Tamworth, Staffordshire B78 3RW.

The IM Group utilizes a process of continuous product improvement for all of our products. While the IM Group strictly adhere to our products specifications, we routinely implement product improvements. Therefore, please contact us for our most current product specifications. The IM Group warrants the quality of this product when used according to directions. Apply protective coatings per Company Standards. User shall determine suitability of product for use and assumes all risk. The seller will not accept liability for more than product replacement.
