Bio Clean

Biological cleaning and reodourising of all surfaces

A liquid biological surfactant used for cleaning areas where a bio solution is at work in the drainage system

What is Bio Clean?

Bio Clean is a specialised concentrated biological preparation for multi-surface cleaning. It effectively combines biodegradable surfactants, fresh fragrance and beneficial bacterial strains, which digest organic debris at the source. Aggressive cleaners, acids and alkalis kill biological cultures. Bio Clean has been developed to enhance the effectiveness of biological solutions used within a drainage system. Bio Clean should be a key part of the cleaning schedule if a natural drain maintenance system is being used.

BIO PRODUCT

CLEANER

DRAIN MAINTAINER

REODOURISER

How does Bio Clean work?

The microbes in Bio Clean effectively penetrate porous surfaces and establish effective self-renewing biofilms deep inside inaccessible surfaces. Bio Clean successfully performs many functions – it cleans, refreshes, eliminates organic waste build up and reodourises by destroying the source of the bad odours and replaces malodours with a pleasant fragrance.

Key Features and Benefits of Bio Clean.

- Bio Clean is the naturally effective way to clean without using toxic and caustic chemicals.
- Safe to use.
- Safe for the environment,
- Non flammable
- Readily biodegradable.
- The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) 648/2004 on detergents.
- Developed to enhance the use of any biological drain maintenance system.

How do you use Bio Clean?

Dilute appropriately depending on the intended cleaning application. Hard surface cleaning: dilute Bio Clean 1:20 with warm water. Odour reduction: spray neat or diluted with up to 4 parts water, no need to rinse. Dispose of the used mop water into drains to enhance any microbial activity throughout the plumbing lines. **Always read instructions and safety data sheets carefully before use.**

Bio Clean is recommended for use with:

Enzyme Plus: A super strength bacteria in liquid form that will ensure that drains and traps are kept free from the build-up of fats, oils and grease.

Bio Ball: A super strength bacteria in a solid form that will ensure that traps and tanks are kept free from the build up of fats, oils and greases

Naturally always use the Drainworks Bio Range & clean with: Bio Clean
