

MAGIC WET WIPE SACHETS

All the benefits of a super cleaning wipe in a single sachet.

A few reasons why you should choose a sachet over a bucket of wipes.

Good personal hygiene and the facility to keep tools and surfaces clean, is imperative in our working and personal lives. There are times however when a bucket of wipes is just not convenient.

If you have equipment and tool boxes to carry around, ideally you need an extra set of hands to carry the cleaning wipes. **Pop a few sachets in your pocket.**

Is your day spent in a vehicle? You need cleaning facilities whilst you're on the go. You certainly don't want to have anything left in view that may tempt a break in. **Sachets fit in the glove box perfectly.**

You want to send out samples or free gifts but a bucket of wipes is bulky and will be costly to send out. **Slip a few sachets in an envelope.**

There's nothing more frustrating than going to your bucket of wipes to find that the lid hasn't been shut properly and the wipes have dried out. **You have guaranteed freshness with a sachet.**

What else is different about Magic Wet Wipe Sachets?

The answer to that is **NOTHING!** You still have the strong, absorbent non-scratching towel as you do in the Magic Wet Wipe buckets, which is safe for use on hands and tough enough to use on hard surfaces including tools and machines.

Use the abrasive side to loosen and dissolve both surface and embedded contaminants.

Then wipe with the softer side of the towel. This will absorb the contaminants into the towel and prevent the dirt from spreading from one area to another.

What will Magic Wet Wipe Sachets clean?

Grease, oil, fats, tar, graphite, coal dust, grass stains, adhesive, paint, wax, ink and most other heavy duty soiling.

Who can use Magic Wet Wipe Sachets?

Anyone in any industry!
