

POWERFOAM SANITISER

Heavy duty foaming sanitary cleaner and descaler for use in bathrooms and showers

What is Powerfoam Sanitiser ?

Powerfoam is a heavy duty cleaner containing powerful descaling agents and surfactants to aid degreasing. Powerfoam is gentle yet powerful and will remove grease, dirt and grime from surfaces, leaving surfaces clean and fresh.

Powerfoam Sanitiser will also remove scale from taps, shower heads, shower screens, baths and sinks. Powerfoam Sanitiser can be used on chrome, stainless steel, ceramics, glass, enamel, nickel and plastic.

How does Powerfoam Sanitiser work?

Powerfoam Sanitiser contains a foam boosting agent which we have combined with a specialist nozzle head to provide a stable mousse. The mousse can sit on vertical surfaces such as tiles, taps and fittings, allowing the cleaning agents to clean and descale.

How does Powerfoam Sanitiser work?

Simply spray Powerfoam Sanitiser over taps, fittings and surfaces. Leave on the surfaces until the mousse starts to break down and then wipe or use gentle abrasion with a microfiber cloth. For best results, rinse down with warm water and dry using a lint free cloth. We suggest Red Rag's Great White Wipes.

For areas which you think may be affected by use of Powerfoam, test in an inconspicuous area.

Key Features and Benefits of Powerfoam Sanitiser

- Gentle acids clean and remove scale from surfaces.
- Contains a foaming agent that ensures the cleaning agents remain on surfaces.
- Specialist foaming spray head.
- Contains surfactants that help degrease areas. Pleasant citrus aroma – no strong chemical smells.
- Safe to use on surfaces that can be easily damaged with bleach based products.

Health and Safety

Before use, it is important that you have read the Safety Data Sheet in its entirety and the appropriate PPE is worn during use.
